

### **“Boys Will Be Boys”**

Somewhere a little girl is scared  
Because she got hit by here male classmate  
And tell her teacher  
Her teacher laughs and responds, “don't worry, boys will be boys”

Somewhere else, a 10 years old girl is crying  
Because her male friend said,  
“Football is not for girls”  
And she tells her father,  
Her father laughs and responds, “don't mind it, boys will be boys”

Another place, a girl is harassed by her male friend  
Because she doesn't want to date nobody  
And she tells her mother  
Her mother responds, “don't come in contact with boys, boys will be boys”

Then, a 15 years old girl is being cat-called  
Because she is pretty  
She tells her sister,  
Her sister responds, “don't pay attention to them, boys will be boys”

“Boys will be boys”  
“Boys will be boys”  
“Boys will be boys”

STOP!!!

Girls will be girls

Opps, sorry.  
I've always been told to  
“Act like a lady”  
“Don't be too bossy”  
“Don't be so emotional”  
“Stop being so dramatic”  
“You'd be much prettier if you just smiled”  
“Don't act so muscular”

My ears are filled with the same phrase over and over and over.  
Boys are not boys, boys are what we teach them to be.
